INTERNATIONAL WELCOME POINT (IWP)

As part of the International Relations Office, the International Welcome Point was set up to provide the **information, support and hosting services** which are needed before, during and after the stays undertaken at the University of Valladolid by postgraduate students, professors, researchers and administrative staff from overseas institutions.

The IWP operates as a **centralized point** for the whole university community and aims to create the best atmosphere to enable these groups to conduct their work in the most satisfactory manner and to successfully integrate into our community.

The IWP offers **personalized attention**, and is a comprehensive service that provides support and information on a range of issues of interest to those visitors coming to our university from abroad: accommodation, immigration procedures, family support, transport, school and nursery attendance, health insurance, university card, internet access, language support, sports, culture, parking, certificates, and so on. The IWP is located at the International Office (**International Students Section**), Casa del Estudiante.
