

Dear colleague,

About the students interest to study at UNAM, we share with you the information about the application procedure for student mobility to spend a semester in this university, DEGREE (undergraduate) level.

- We share with you the link <https://www.dgae.unam.mx/planes/licenciatura.html> of the General Direction of School Management, where you'll find the academic offer at UNAM.
- If there is no collaboration agreement, the student can come as "visiting student". Costs are \$ 250.- USD for registration and \$ 275.-USD for each subject or course you take. (Despite there is no agreement, the application process is the same for the international office of your university).
- The university must start the application process, through a "Pre-Registration" with student's name, through our new online system for applications, and it needs a user account and password to access the system. If you do not have it, the university must contact us to send you information and instructions.
- Then the student will receive an e-mail with a link to complete your application online and upload required documents. After completing the on-line application, the international office of the university must REVIEW YOUR APPLICATION, VALIDATE and upload nomination letter. Only then will be received by UNAM.

Check for details <https://www.unaminternacional.unam.mx/es/ex/estudiante/extranjero/se-mestral>

I hope this information will be useful for you.
