Visa Requirements/Residence Permit Application

Entry Regulations Applicants from EU/EFTA nations as well as some other nations do not need a visa to study in Germany.
Applicants from Non-EU nations normally need a visa to study in Germany. In order to get a visa and the information if they need a visa, they must contact the embassy or consulate of the Federal Republic of Germany in their home country to ask and apply for it. Application for visa is necessary at least 2 months ahead of time. Students cannot travel to Germany on a tourist visa, since this cannot be changed into a student visa! Students that are in Germany on a tourist visa are not entitled to study there. Students from Switzerland who are allowed to enter Germany without a visa have to fill out a residence permit application, which can be obtained at the local Foreigner's Registration Authority.

Further Information See "Legal Requirements": www.international.tum.de/en/coming-to-tum/exchange-students

Health Insurance

Are students required to purchase health insurance? Yes, in Germany health insurance is mandatory. One cannot register at TUM without proof of a German national insurance. Students originating from countries in the European Union (EU/EFTA) nations must obtain the International Health Insurance Certification (former E111 or E128) or EHIC-Card from their insurer in their home country and present it to a German national insurer to receive the demanded proof. Students originating from countries outside the EU: To ensure that coverage is sufficient to meet German national standards, it is recommended that students purchase an in-country medical insurance plan. Full coverage for students is around €90-95 monthly. Travel insurances are not accepted:

Further Information See under "Legal Requirements":
www.international.tum.de/en/coming-to-tum/exchange-students

Banking

Must students open a bank account while studying in Munich? It is highly advisable to open a bank account in Germany. German banks offer accounts free of charge for students. Debit cards from German banks are accepted throughout Europe.

Tax-ID Since 2018 it is obligatory to show a tax-ID for opening a bank account: When coming to Germany, students should bring their own tax-ID from their home country. Please help them with this matter!
 They could also get a German tax-ID. But this is much more difficult and needs a lot of time (6-8 weeks): this is often too late for opening a bank account, as e.g. landlords, TUM sports (if taking part) need bank data earlier. So it is not really an option.

What are acceptable credit cards in Munich? In Munich all major credit cards are accepted. However, not all stores take credit cards; some shops only accept cash payment.
 In smaller cities and towns outside of Munich credit cards are not widely accepted.
