

Exchange Students

English Courses / programs taught in English 2018-19

If your students attend courses taught in English only, the level B2 required for French language does not apply. They need to have sufficient knowledge in English (B2) to attend courses and lectures, write essays and take exams.

At the university, students can speak English with the administrative and academic staff. But in the town of Neuchâtel, people do not necessarily speak English. So a basic understanding knowledge of French language (level A1-2) is recommended to feel comfortable and be able to handle issues of the everyday life.
