

Dear Partner

Following the success of our Summer School in July this year we are now organising Summer School 2020! We are inviting students from our international partners to live and study in Scotland for three weeks in July and August. The Summer School will be hosted at our Paisley Campus, on the edge of Glasgow. Not only is the programme a great opportunity to explore all that Scotland has to offer, it also allows student to take home academic credit under the European Credit Transfer Scheme. Our modules are delivered by expert lecturers in our active learning suites, ensuring you receive the best learning experience.

Students will take part in two modules focusing on enterprise, leadership and management which carry 10 ECTS credits. The timetable is structured to give you the freedom to explore more of Scotland and the UK. We'll also provide opportunities to go on excursions to places like Loch Lomond and some fun social activities throughout the three weeks.

This Summer School includes all tuition fees, accommodation and organised social activities for a cost of £1250.

Kindest regards,
