

Radboud Summer School

6 - 17 July and 3 - 14 August, 2020

We would like to invite your students, researchers, and academic staff to take part in our summer school in 2020. Radboud Summer School is organized by Radboud University, one of the leading academic centres of excellence in the Netherlands. Over 850 participants from 75 countries joined us in 2019 and we received a participant rating of 8.7 out of 10.

Our academic courses will inspire your students and researchers, enable them to explore new scientific areas, develop their skills and expand their international network. All of our (over 60) **courses** are taught in English by renowned academics from our own university but also from some of our partner universities. Each year we add exciting new courses and again we continue with many courses that were highly evaluated by our participants.

We believe that our summer courses will complement your university's curriculum perfectly. Since Universidad de Valladolid is one of our valued partner universities, we offer your students **25% discount** on the course fee if they apply before the **1st of March 2020**.

Please forward this invitation to everyone you think might be interested in an unforgettable summer.

Kind regards,

Director Radboud Summer School
