FACULTY OF COMPUTER SCIENCE AND MANAGEMENT

21st century is driven by **Innovation**. It has changed the way we live, conduct business, travel, communicate and do everything else that one might think of. Whether you want to be an **engineer**, a **manager**, an **entrepreneur**, a **teacher**, a **researcher** or a **politician**; it would be expected of you to do the most with the least amount of resources. This is where 'Design Thinking' comes in! It's a tool that will be helpful to you at any level, any role and in any organization you work in or run. The aim of the Programme is to get you familiar with the concept of design thinking and to help you to understand each stage of the process and apply all of it for a practically feasible project. This course can be attended by individuals from any level & field. The only criteria for acceptance are **passion**, **dedication & will** to be innovative **& creative**.
